

Mission Statement
Back in Business Physiotherapy
Suite 705, 107 Walker Street,
North Sydney, 2060
Tel. 9922 6806

On the initial consultation you can expect

- a thorough evaluation , including history taking and movement assessment
- a work or sport specific evaluation where possible
- a diagnosis
- some treatment
- a management plan of exercises and an expectation of duration and cost of treatment

Our 6 ethical principles are to

- act in the best interest of our patients
- practice in accordance with acceptable professional standards
- apply principles of best practice of physiotherapy to our professional activities
- respect the rights and dignity of all individuals
- comply with all legislation that governs and impacts upon the practice of, and research in the field of physiotherapy
- accept the responsibility to uphold the integrity of the profession

The purpose of this website is to provide details on Musculoskeletal Physiotherapy to prospective clients, current and previous clients. Moreover this site promotes community health across several languages and cultures. By describing in detail the broad scope of the clinical reasoning process, this site wishes to enhance the knowledge base of all physiotherapists.

Our target referrals are 'word of mouth' clients
